Public Health Research Data Forum

Joint Statement, 2011

Immediate goals

- Data management standards support data sharing
- Data sharing is recognized as a professional achievement
- Secondary data users respect the rights of producers and add value to the data they use

Longer-term aspirations

- Well documented data sets are available for secondary analysis
- Capacity to manage and analyse data is strengthened
- Published work and data are linked and archived
- Data sharing is sustainably resourced for the long term

My own journey

Chelsea Harbour

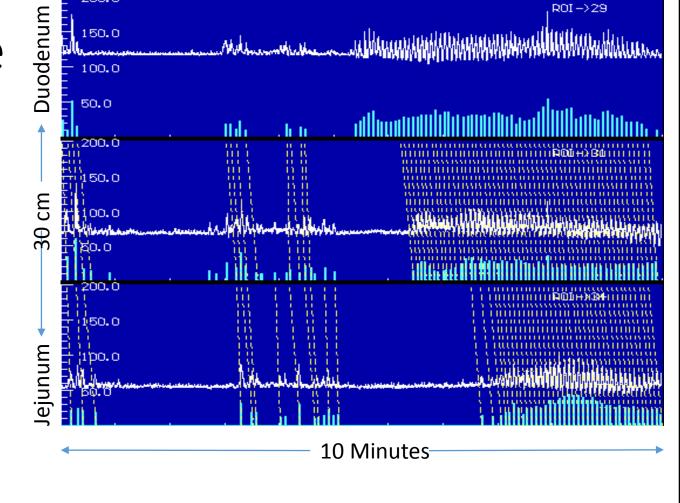

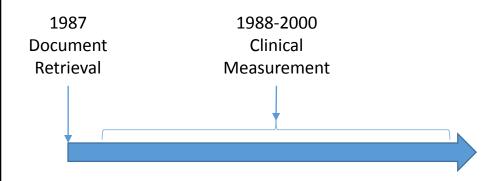

1987 Document Retrieval

The Wingate Institute

Pressure waves recorded at three sites along the human small intestine, spaced 15 cm apart. The burst of contractions moving down the bowel is known as Phase III of the migrating motor complex.

National Programme for IT, UK NHS

Clinical Governance

UK National Health Service organisations became accountable for continually improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care will flourish

Genomic Revolution

Human Genome Project

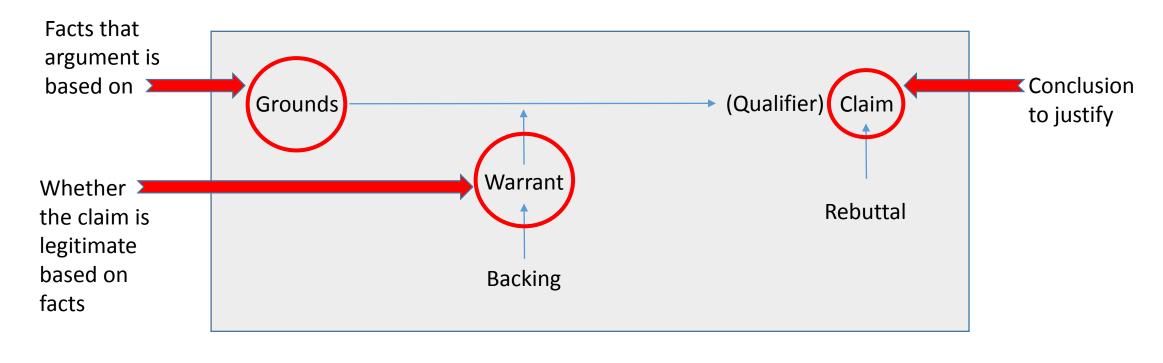

International, collaborative project to map the whole human genome.

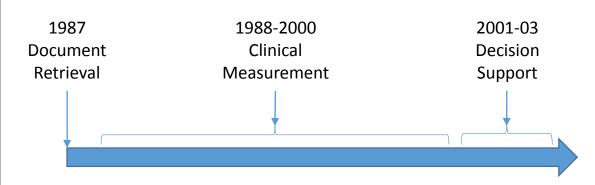

Founded in 1990.

2001 draft human genome published in *Nature*.

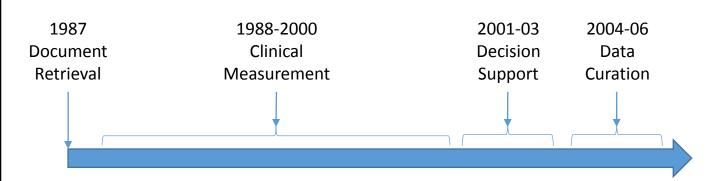

Decision support & Argumentation

Microarray Gene Expression

... the complexity of the MAGE-ML format has made its use **impractical for laboratories** lacking dedicated bioinformatics support. We propose a simple tab-delimited, spreadsheet-based format, MAGE-TAB, which will become a part of the MAGE microarray data standard and can be used for annotating and communicating microarray data

Data Re-use

Neurogastroenterol Motil (2006) 18, 927–935

doi: 10.1111/j.1365-2982.2006.00824.x

The nocturnal jejunal migrating motor complex: defining normal ranges by study of 51 healthy adult volunteers and meta-analysis

**Department of Medicine, Karolinska Institutet, Huddinge University Hospital, Stockholm, Sweden

Predictive Analytics (Health Dialog UK)

- Commissioned by the UK Department of Health
- Kings Fund, Health Dialog and New York University
- Patients at Risk of Rehospitalisation (PARR++)

PARR +++

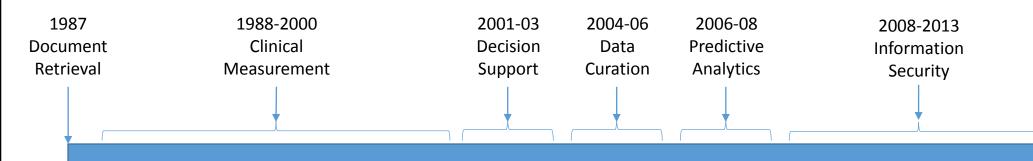

- Predictive model based on UK inpatient data
- Freely distributed to all NHS organisations

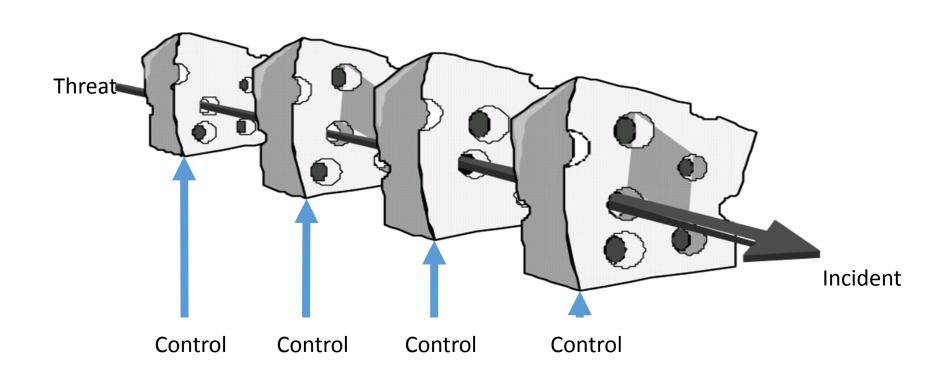

Information Security (UCL Inst of Child Health)

- Confidentiality
- Integrity
- Availability

Reason's model

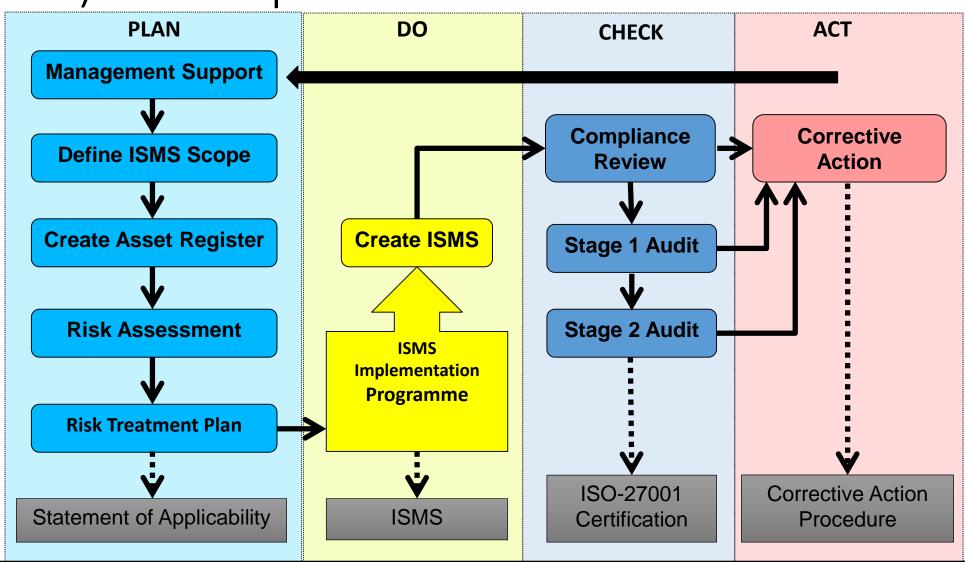

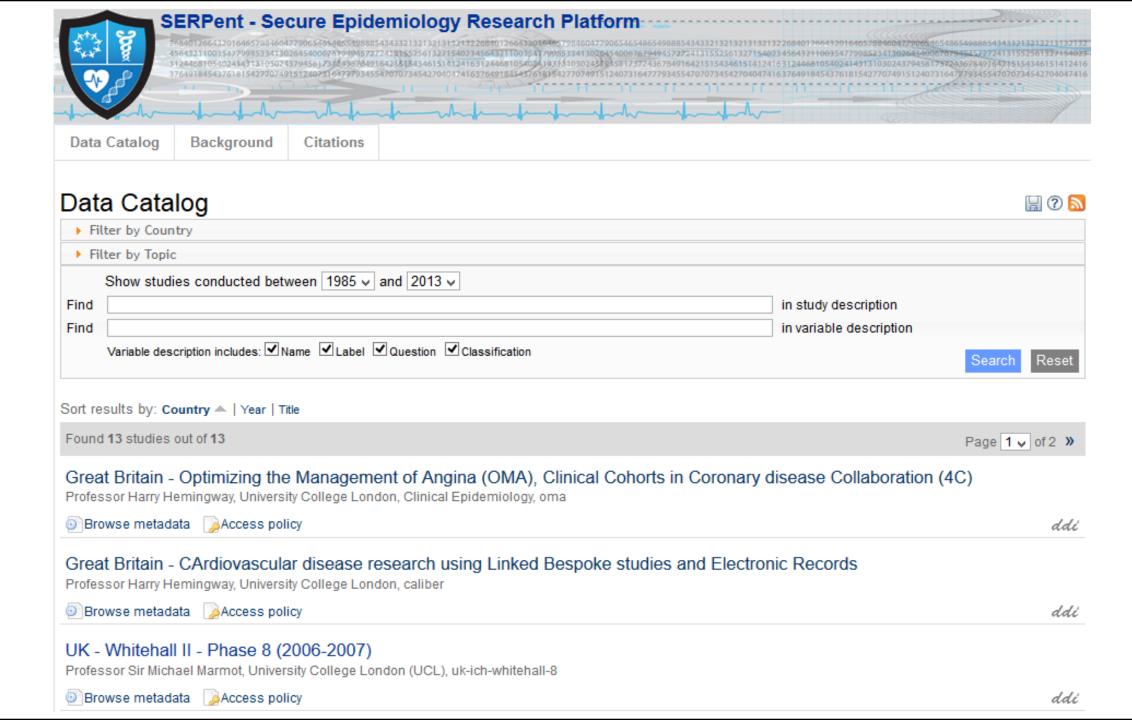

Information Security Management Systems

- International standard for information security
 - ISO-27001:2005
 - Describes requirements (i.e. what you 'shall' do)
 - Independently audited
- Associated code of practice
 - ISO-27002:2005
 - Provides guidance (i.e. what you 'should' do)
- An ISMS is dynamic

Information Security Management System (ISMS) Development

Data Management Planning

Typical content

- Description of the data to be collected / created
- Standards / methodologies for data collection and management
- Ethics and Intellectual Property concerns or restrictions
- Plans for data sharing and access
- Strategy for long-term preservation

DMP Tool

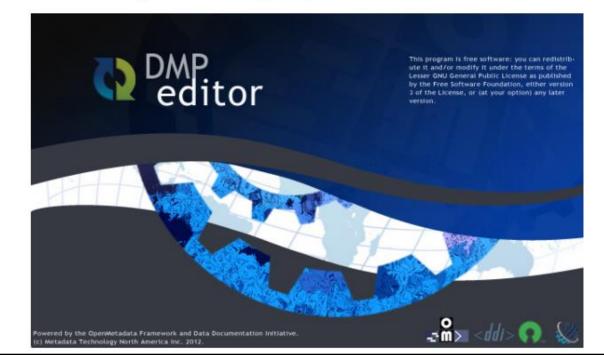

http://www.openmetadata.org/site/?page id=373

ME PRODUCTS SERVICES DEVELOPER BLOG ABOUT

Data Management Plan (DMP) Editor

- Downloadable application
- User documentation
- Open source code repository

Benefits of certification

- 2012 formal certification of epiLab-SS service
- 2013 accreditation with NHS standards

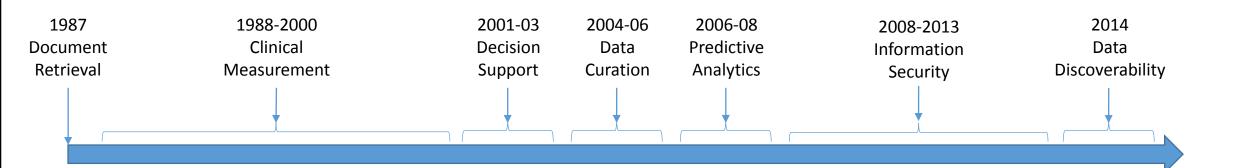

- UCL among a group of universities funding to establish
 - Farr Institute of Health Informatics Research 2013
 - Administrative Data Research Centre 2014
 - Total of more than £74 million
- 2014 UCL receives ISO 27001 and NHS for large-scales secure service

Data Discoverability Report (Wellcome Trust)

Three Complementary Models

- Centralised Portal Model
- 2. Data Journal Model
- Linked Data Model

Standardised metadata and documentation is essential

Application Architect, UCLH

I may not have gone where I intended to go, but I think I have ended up where I needed to be.

Douglas Adams, The Long Dark Tea-Time of the Soul
