		TRAINING SESSIONS – Mann Library
8:00am	9:00am	Registration & Packet Pick-up *(lobby area outside B30B - Mann Library)*
9:00am	12:00pm	MORNING WORKSHOP **Getting Started with DDI** This workshop will look at the major uses of metadata, how DDI supports them, and how to use this information to determine what parts of DDI are important to your work. Following this we will focus in on the first three areas which are of particular use to libraries, archives, and individual researchers. We will explore various decision points regarding version selection, depth, and breadth of coverage. Finally we review the available tools noting any special functions or limitations. The attendee should gain an understanding of what DDI can support as well as how to integrate the use of DDI into their data/metadata management work. *Instructor: Wendy Thomas, Minnesota Population Center, University of Minnesota*
12:00pm	1:30pm	Lunch - On Your Own – See options listed in your information packet
1:30pm	4:30pm	AFTERNOON WORKSHOP **Document Questionnaires and Datasets with DDI: A Hands-On Introduction with Colectica** This workshop offers a hands-on, practical approach to creating and documenting both surveys and datasets with DDI and Colectica. Participants will build and field a DDI-driven survey and then ingest, annotate, and publish DDI dataset descriptions using the collected survey data. *Instructors: Jeremy Iverson and Dan Smith, Colectica*
7:00pm		Informal get-together dinner at; Ithaca Beer Co., 122 Ithaca Beer Drive, Ithaca, NY tel: 607-273-0766
